

## Kelso Solar Project **Update**

May 2021

Thank you for signing up to receive updates for the Kelso Solar Project. In case you missed it, we released news yesterday about the economic benefits of the proposed project. The highlights include that the project is projected to create more than 237 full-time jobs during construction and 10 full-time jobs for the 35-year project life, as well as contribute \$10.6 million to Scott County's GDP during construction and \$1.1 million each year during operations.
